# THISTLE GROUP

The 9kW Diesel Driven Hydraulic Power Unit (HPU) is the ideal choice where no electrical power supply is available. This HPU is able to supply a flow of 25 LPM at 180 bar via two bi-directional outputs ideally suited for the fine control of a pair of hydraulic cylinders. The HPU has been designed to be compact, quiet, reliable and easy to operate and service. All exposed areas of the HPU is manufactured from stainless steel to ensure a long service life when used in harsh, remote environments.

Thistle Marine prides itself on the supply of quality equipment, equipment which has been developed over many years of experience in the offshore, marine and oil and gas industry.

### KEY POINTS:

- Fully stainless steel construction
- Designed for low noise operation
- Internal drip trays
- Concealed design with access doors
- Field proven design
- Integral fork pockets
- 4 point lift attachment on base for easy lifting in remote location
- CE Marked

### Technical Data

Technical Data	
Dimensions:	2.25m (L) x 0.9m (W) x 1.2m (H)
Motor Power:	9kW (unlimited)
Hydraulic Performance:	25 LPM @ 180 bar
Weight:	1000Kg
Diesel Tank Capacity:	100Litres
Hydraulic Output Connections:	1/4" snaptite quick connects
