THISTLE GROUP

The MFB8 landing and discharge crane is typically used for loading and unloading fish boxes and equipment between vessel and quayside. Designed for harsh environment use and manufactured from seawater resistant materials throughout, it has a small footprint and its reach can be tailored to suit your requirement. Available with or without continuous rotation function. Our service offers complete installation and training where required.

Technical Data	
Load Rating:	8,000 kg / metre
Style:	Straight main boom, 1 dynamic section, continuous rotational base
Lift:	1,000 kg @ 8 metre reach
Hydraulic Supply:	Typically 210 bar at 45 LPM
