15,000 kg Self Hauling Rope Reel

THISTLE GROUP

The Self Hauling Rope Reel is a large capacity hydraulically driven and braked rope reel commonly used onboard fishing vessels to store and manage a large capacity of rope for seining/fly-shooting net control. These reels can be fitted below or above deck and are commonly used in pairs. Over the years Thistle Marine have supplied many of these reels to suit different new build vessels, the design can be tailored to suit your requirements.

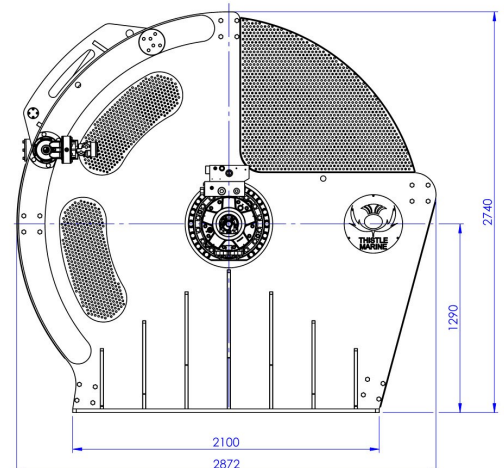

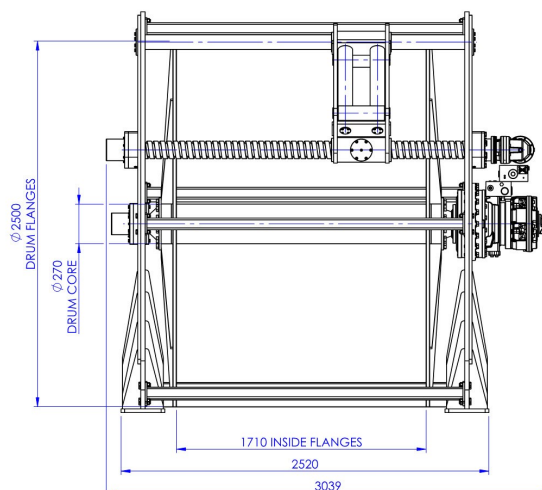

Key Points:

- Electro-hydraulic rope spooling
- Large rope storage capacity
- Hydrostatic brake, freewheel function
- Low maintenance
- Compact design
- Marine paint system
